Project [112567] 888 at Liberty Center
Subject Letter of Recommendation for Granite America

Dear Sir or Madam:

Clark Residential has been working with Granite America on several residential projects. I have the privilege to work with Granite America, Mr. Gene Chu and his outstanding team on 1700 Duke Street at Alexandria, Virginia and the most recent completed project 888 Liberty Center Condos at Arlington, Virginia.

Granite America takes pride in the work they perform for all Clark projects. Their management team, their installation crew and quality of the materials have earned them numerous praises from various developers. Although Granite America's scope of work with Clark is mainly granite countertop installation, Granite America, when approached, would often offer unbiased advice to Clark and our clients on other issues. For example, the developer of 888 Liberty Center, encountered a countertop issue with one of the condo buyers. The General Manager of Granite America, Ms Sandra Arbo, was able to meet up with Clark and the developer at a moment's notice. Also, when the developer mentioned she needed door thresholds for the building, Ms Arbo, without hesitation, offered her help to research the thresholds even though this is not in Granite America's scope for this project.

The willingness of Granite America to provide this extraordinary customer service and their outstanding performance has put Granite America one of the top contractors that Clark will approach when new projects are out there. With the wonderful work experiences with Granite America Clark will not hesitate to recommend Granite America to other developers for our future projects.

Please feel free to contact the undersigned at (301) 272 8453 should you have any questions.

Thank you.

Sincerely,

CLARK MULTI-FAMILY BUILDERS - MID-ATLANTIC, LLC

Suet Lee Yeo
