Subject: RE: Granite counter tops – CounterTopia

Denis, All,

Please accept this as a strong recommendation of CounterTopia. They are very close to completing this project and have performed excellently for us. They have maintained a very fast paced schedule. Their workmanship was also exemplary. We had no issues concerning granite on the project. As you know that is saying something!

I would hope that we used them again and would give them last look.

Thank you,

Ron Asselin
